1:15 – 2:15 P.M. EET

SDG Pavilion (Blue Zone) | COP 27
Hybrid event

THE GISD ALLIANCE AT COP27:

SCALING UP PRIVATE
INVESTMENT FOR
SDG AND CLIMATE
ACTION

To achieve the Sustainable Development Goals and climate objectives, trillions of dollars of investments are necessary, particularly in developing countries.

While public investment remains essential, **mobilizing additional private capital will be critical to support the closing of the investment gap.** The side event will highlight the Key Deliverables of the GISD Alliance and feature a discussion on realizing synergies between the sustainable development and climate agendas.

The Global Investors for Sustainable Development (GISD) Alliance is a group of CEOs convened by the United Nations Secretary-General to take concrete action for scaling up private finance and investment for all SDGs
